Career Objective

Software Engineer with hands-on experience in building scalable full-stack applications using React.js, Next.js, Node.js, Express.js, Python, and TypeScript. Experienced in REST API development, authentication systems, SSO workflows, Supabase, AWS Cognito, and Stripe integrations.

Currently expanding expertise in AI-integrated systems, workflow automation, and agent-based application development to build intelligent solutions for real-world business problems.

Education

JNTU, KAKINADA	(May 2024)
B. Tech (CSE) 7.72 CGPA	
Sri Krishna Chaitanya Junior College, Narasaraopet, Andhra Pradesh	(Mar 2020)
Intermediate 9.59 CGPA	
ZP High School, Telukutla, Andhra Pradesh	(Apr 2018)
SSC 9.3 CGPA	

Technical Skills

- **Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, Fast API, Rest APIs
- **Database & Authentication:** MySQL, Supabase, MongoDB, AWS Cognito, SSO Authentication
- **Payments & Integrations:** Google APIs, Stripe, OpenAi APIs
- **AI & Developer Tools:** GitHub Copilot, Cursor, Claude Code, AI-Assisted Development
- **Tools & Platforms:** Git, GitHub, Vs Code, Postman, Swager

Work Experience

Maganti IT Solutions

Software Engineer | Apr 2026 - Present

- Developed scalable full-stack applications using React.js, Next.js, Node.js, Express.js, and TypeScript.
- Built and integrated REST APIs for authentication, subscriptions, payments, and user onboarding workflows.
- Implemented secure authentication and SSO systems using Supabase Auth and AWS Cognito.
- Resolved multi-region authentication and redirection issues to improve onboarding workflows and platform stability.
- Optimized backend workflows for user management, integrations, and production deployments.
- Collaborated with cross-functional teams to deliver AI-integrated platform features and workflow improvements.
- Promoted from Junior Application Developer to Software Engineer based on contributions to production systems and engineering ownership.

JuniorApplicationDeveloper | Sep 2024 - March 2026

- Implemented Stripe payment integration for subscription and checkout workflows.
- Integrated Supabase for Authentication login and SSO's secure user management.
- Worked with Google APIs to enable AI-powered features in applications.
- Utilized GitHub Copilot and Cursor AI Code Editor as AI pair programmers to improve productivity and code quality.
- Gained hands-on exposure to prompt engineering for enhancing AI-assisted development.

Projects

Project Title: "StandOut.infuture.ai – AI-Powered Career Preparation Platform"

Technologies Used: Next.js, React, TypeScript, Tailwind CSS, Supabase, Stripe, Cognito

- Developed a full-stack career platform for interview preparation, job tracking, and student engagement workflows.
- Integrated frontend applications with backend APIs and scalable database systems.
- Implemented authentication workflows, responsive UI components, and subscription-related integrations.
- Collaborated with backend and AI teams to support AI-powered insights and recommendation features.
- Built scalable and maintainable frontend architecture using Next.js, React.js, and TypeScript.

Project Title: "Fullstack Web Application with Admin Form Handling"

TechnologiesUsed: React,Node.js,Express,TypeScript,GSAP,EmailIntegration

- Developed full-stack web application with admin form handling and automated email notification workflows.
- Built backend APIs and frontend interfaces using React.js, Node.js, and Express.js.
- Implemented TypeScript-based architecture to improve maintainability and scalability.
- Enhanced user experience with optimized animations and interactive UI workflows using GSAP.

Certifications

- **GitHub Copilot Fundamentals** — Microsoft Learn
- **SQL and Relational Databases 101** — IBM
- **Python 101 for Data Science** - IBM
- **Full Stack MERN** — Smart Bridge
- **Web Development Certification** — Internshala
- **Frontend Development Certification** — SmartInternz

Achievements

- Promoted from Junior Application Developer to Software Engineer for contributions to production systems and backend workflows.
- Won 3rd Prize in Hack Overflow 2k22 conducted by SVC College.
- Earned GitHub Copilot Fundamentals certification from Microsoft Learn
